

Tuesday, December 7th

Professional Development Courses

Choose from three full-day and two half-day Professional Development Courses (PDCs) on Tuesday, December 7th. These courses are designed to help you meet specific regulation requirements. Course registration fees include refreshments and printed material; full-day courses include lunch. Registration for these programs is on page 13.

Full agendas for each course are available at
www.fetinc.org

Environmental, Health & Safety Primer 8:25 am - 4:30 pm

This course will provide a general understanding and update of environmental regulations and management. Major regulatory areas will be covered. It is recommended for individuals new to the environmental field, especially those with regulatory responsibilities. We will review regulatory requirements, permits, record-keeping, reporting, common violations and training.

- Environmental Health & Safety Regulations – What You Need to Know
- OSHA Overview including Hazard Communication
- Soil and Groundwater Protection and Remediation
- SPCC Applicability and Plans
- Hazardous Materials Transportation
- Hazardous and Universal Wastes
- Wastewater Permits
- Overview of WDNR's Storm Water Permit Program
- Clean Air Act Overview
- Emergency Planning and Community Right to Know
- Environmental, Health & Safety Management

Air Quality and Permitting Updates 8:00 am - 4:00 pm

This course is intended for new and less experienced staff responsible for air pollution regulatory compliance by providing information on state and federal regulations, permits and exemptions, records, reporting and monitoring. Come find out what you might be missing in your compliance practices!

- Basics of Air Permitting in Wisconsin
- Air Permit Renewal Reminders
- Air Program Compliance Updates
- DNR Air Policy Updates
- RICE and Non-Road Engines - Rule Reminders and DNR Policy Update
- Updates on Green House Gas and Climate Change at the State and Federal Level
- EtO Sterilizers/Chromium Electroplating/Other NESHAP Hot Topics
- EPA Updates - Enforcement Strategy

PFAS Updates and Strategies

8:00 am - 3:45 pm

This course will explore the latest regulatory and technological developments related to the investigation, management and remediation of PFAS.

- Analytical Method Updates/Mobile Lab Techniques
- Investigative Strategies/Best Practices
- State and Federal Regulatory Update
- WDNR Regulatory Update and Case Closure Re-Openers
- A Defensible Multiple-Lines-of-Evidence Approach for PFAS Source Identification and Liability Allocation
- PFAS Disposal and Management
- Mineralization of PFAS in Water by Photoactivated Reductive Defluorination
- TRI Reporting & PFAS

DOT HazMat Training Half-Day

8:10 am - 12:00 Noon

This course will meet the DOT Hazardous Materials Training requirements of 49 CFR Training Requirements 172.700-172.704 for the highway shipment of common hazardous materials and hazardous wastes.

- Training Requirements & Enforcement - The Who, What, When & Why
- Identifying Hazmat & Hazard Classification
- Packaging, Marking, and Labeling
- Shipping Papers, Emergency Information, Placards
- Security Planning, Registration, and Recordkeeping Requirements
- Summary and Written Exam

Sustainability Half-Day

1:00 pm - 4:00 pm

For those new to sustainability or those that may have been in it for a while, this course will discuss the latest trends in sustainability, focusing on how to build a sustainability program at your company, and hear the success stories of companies who have done so.

- Introduction to Sustainability
- Developing and Environmental, Social, Governance (ESG) Program Strategy/Report
- Case Study: Renewable Energy and GHG Reduction at SC Johnson
- Biden Administration Climate Change Agenda: Legislative/Regulatory Impact
